

A career in healthcare

It takes more than doctors and nurses to deliver quality healthcare. Indiana University Health employs thousands of people in hundreds of different clinical and non-clinical jobs to provide excellent care to patients.

Health Sciences Education encompasses positions other than nursing. In addition, you can train for many of these positions on IU Health campuses. Some programs can be completed in their entirety at IU Health (certificates), while others may require more academic work at an area college or university before coming to IU Health for clinical education (degrees).

Certificate programs

- Pharmacy technician
- Surgical technology

Degree programs

Two-year associate degree program

(affiliated with Ball State University):

- Radiography

Four-year bachelor's degree programs

(affiliated with various universities):

- Medical laboratory science
- Respiratory therapy

Application deadlines vary. For application packets or to find out more about these programs, please contact **317.962.5470** or learning@iuhealth.org or visit our website at iuhealth.org/hse or scan the QR code below.

Indiana University Health

A private, nonprofit organization, Indiana University Health is Indiana's largest comprehensive health system and is comprised of hospitals, physicians and allied services dedicated to providing preeminent care throughout Indiana and beyond. Our unique partnership with Indiana University School of Medicine gives our highly skilled physicians access to innovative treatments using the latest research and technology.
